EDUCATION & CERTIFICATIONS

Bachelor of Science with Honors in Computing Science, Minor in Mathematics
GPA: 3.6/4.0 | First Class Honors
University of Alberta

Jun 2026
Edmonton, AB

Google Cybersecurity Professional Certificate
Google / Coursera

Jul 2026

- Completed practical cybersecurity training covering risk management, incident response, network security, Linux, SQL, SIEM workflows, and security documentation.
- Applied structured troubleshooting and threat analysis methods to investigate security events, assess risks, and document findings.
- Built foundational knowledge in protecting systems, users, and business data through access controls, vulnerability management, and security best practices.

TECHNICAL SKILLS

Languages & Frameworks | Java, Python, TypeScript, JavaScript, React, Next.js, Django, Node.js, NestJS

Databases | SQL, PostgreSQL, Supabase, Oracle APEX

Tools | Git, Docker, Unix/Linux, GitHub Actions, CI/CD, Tableau, Power BI

EXPERIENCE

Full Stack Developer Intern
Department of Pharmacology, University of Alberta

Jan 2026 - Apr 2026
Edmonton, AB

- Designed and implemented a classroom engagement platform with a team of 6, supporting real-time interaction, uploaded course materials, and AI-generated discussion prompts.

- Built instructor course management and live question broadcasting features using Next.js, Supabase, PostgreSQL, authentication, and real-time WebSockets, enabling anonymous student participation.
- Collaborated with faculty stakeholders to gather requirements, translate classroom needs into technical features, and iterate on usability and system performance.

Teaching Assistant
University of Alberta

Sep 2025 - Apr 2026
Edmonton, AB

- Guided undergraduate students through problem-solving strategies in Calculus, Linear Algebra, and Computer Science.

- Delivered one-on-one, in-person, and online group tutoring sessions to support diverse learning styles and academic needs, supporting 100+ students per semester.

Vice President, Technical
Winners Campus Club, University of Alberta

Sep 2024 - May 2025
Edmonton, AB

- Led technical operations for digital and hardware-related projects, achieving improvements in process efficiency.

- Managed and set up hardware and presentation software for 10+ events per semester, ensuring seamless operations.
- Launched a YouTube live-streaming initiative, increasing event engagement and accessibility.

Head Peer Tutor
University of Alberta

Sep 2024 - May 2025
Edmonton, AB

- Led a team of 10 peer tutors, resulting in a 30% improvement in students’ overall grades.

PROJECTS

LightCoral | Django, Git, UML, Agile Development, CI/CD, Heroku

Dec 2025

Full Stack Developer Student

- Built a distributed web application that enables federated communication and data sharing across nodes.
- Collaborated in a team of 6 to design and implement the backend API and cross-node coordination using RESTful web services.
- Improved team efficiency through CI/CD, version control with git/GitHub and coordinated development workflows.

MuSync | Node.js, Express.js, NestJS, RESTful APIs, OAuth 2.0, Vercel

Dec 2024

Side Project

- Built a full-stack application that removes friction for users transitioning between streaming services by enabling cross-platform playlist transfers.
- Developed end-to-end features, including API integration, data normalization, and a background job queue for efficient transfers, reducing latency by over 40% through optimized matching and caching.
